Phone: (916) 557-1673 x16

Primary Contact: Erik Vink (President)

Fax: (916) 557-1675

Legal Counsel: Scott Shapiro, Downey Brand
Sacramento, CA

Email: erik.vink@tpl.org

Land Service Area: 5221 acres (918 acre in Yolo County; 4,303 acres in Solano County)

Population: N/A

Levee Miles: 12,000 ft by 200 ft linear levee corridor: 1 large 100+ foot wide breach and several smaller breaches at north end of island (Yolo County portion and parts of Solano County); levees in disrepair and largely eroded at southern end of island (Solano County portion)

Provided Services: N/A

NOTE:

Reclamation District 2093 has minimal activity and in recent years has only been incurring expenses related to legal representation and auditing the District's records. RD 2093 voted in January 2006 to contract with the Solano County Auditor-Controller for auditing the districts fiscal years 2003-04 and 2004-05. Beginning with fiscal year 2005-06, TPL requested (and was granted) a five-year audit cycle by the Solano County Board of Supervisors.

Liberty Island has had major levee breaches and has been in a flooded state for over a decade. The island is almost entirely owned by The Trust for Public Land; there are two other private landowners within RD 2093. The Trust for Public Land purchased its property in 1998 with CALFED funding. The land was intended to be a part of the proposed US Fish and Wildlife Service (USFWS) North Delta National Wildlife Refuge, but the refuge was not established and the property has been maintained through private ownership by The Trust for Public Land ever since.

Board Meetings: As needed. Board members have met several times a year over the past several years.

Board of Directors

Erik Vink, President

Reed Holderman, Secretary

Mark Heintz, Trustee
