Subject: Review status of Mental Health Diversion program funded by CCP

Background

The District Attorney collaborated with the Public Defender's Office, the Probation Department, the Sheriff's Department, the Court, and CommuniCare Health Centers to establish the Mental Health Diversion program (MH-Div). The program was launched in October 2021 to address an underserved population of those individuals who do not qualify for Mental Health (MHC - <https://yoloda.org/progressive-programs/mental-health-court/>) or Addiction Intervention Court (AIC - <https://yoloda.org/progressive-programs/addiction-intervention-court/>). The MH-Div program is funded by the Yolo County Community Corrections Partnership through Innovation and Treatment dollars.

The overall purpose of the MH-Div is to enhance public safety and reduce recidivism of those individuals who live with mental illness and/or a substance use disorder (SUD), and those behavioral health issues were a significant factor in the commission of their criminal offense. This is accomplished through supporting their participation in community treatment. This treatment approach increases participant's insight into their mental illness by connecting them with community treatment services. The goal is to help people learn to live with mental illness and become successful. MH-Div is a minimum 1-year collaborative court-based treatment and monitoring system for adult offenders with mental illnesses. It is designed to effectively address the increasing number of mentally ill defendants cycling through the courts and jails.

The program serves up to 30 participants who suffer from mental illnesses and are charged with felony or misdemeanor offenses. Treatment plans are flexible and adjusted based on a participant's individual needs and goals. The plan takes into account the participant's baseline functioning, individual capabilities, and holistic needs including physical, mental, and spiritual interests. Participants will be provided services and support allowing them every opportunity to successfully complete all MH-Div/legal requirements, in addition to improving ongoing safety and life stability following participation in MH-Div.

Program participants progress through four phases: (1) Outreach and Engagement, (2) Preparation, (3) Action, (4) Maintenance. The last part of the program is a restorative justice component (when appropriate) where participants recount their crime and the circumstances that led to the crime. The participant acknowledges who was harmed by the crime and how they were harmed. Lastly, the participant is asked what needs to be done to makes things right. The victim in the cases also is given an opportunity to participate in the restorative justice conference. Upon successful completion of the program a ceremony and reception will be held to commemorate participants who have fully met the MH-Div requirements, maintained satisfactory progress, and remained engaged in the treatment plan.

Update

To date, 51 individuals have been referred to MH-Div, nine are currently enrolled, and 22 are pending assessment. For more details on the program, see attached Powerpoint presentation.

Re: Baseline of Victim Satisfaction Surveys

Background

CCP Victims' Rights workplan declared the importance of the victim notification and the need to identify a baseline measure to monitor the effectiveness of the victim notification process. This was to include victim populations affected by PRCS and 1170(h) populations.

Updates

In 2016, CCP approved and granted a victim advocate be added to the Victim Services Program, dedicated to serving our community affected by PRCS and 1170(h) offenders. The District Attorney Victim Satisfaction Survey was then modified to, not only capture the relevant information to assist the district attorney's office ensure victims were satisfied with the criminal justice experience, but also to document and develop a baseline for victims created by PRCS and 1170(h) populations.

This victim advocate expanded to not only cover the forementioned crime types but also absorbed further modifications created by realignment such as, Non-violent second strikers; Prop 57; expedited releases, new parole programs, Restorative Justice Program victim accompaniment, DRC trainings; executive clemency notifications and re-sentencings, amongst other duties. This was to ensure no victim was left behind as California law continues to be realigned. All Victims are provided the survey once the case has been sentenced and is encouraged to complete it to allow the District attorney's office knowledge of where changes are needed.

The baseline results reflect not just the original crime type established, but all crime types absorbed by the CCP advocate.

Next Steps/Recommendations

Based on the results and outcomes no next steps or recommendations will be sought at this time.

Re: Receive update on vocational development services

As the 2021-22 CCP Budget allocated \$40,000 to implement vocational development services for Probation clients, efforts have been under way to catalog the job training interests/needs of clients and identify related vocational development services in which the CCP could invest.

This winter, 182 adult Probation clients voluntarily completed a job training survey which collected a variety of data related to the availability of clients to get to and participate in training; past training and employment experience; and current vocational training interests.

Recently, the Probation Department met with representatives from the Health & Human Services Agency/Workforce Investment Board (HHSA/WIB) to identify opportunities to meet the job training interests/needs of Probation clients. Of note was the potential to bring a monthly job readiness training to the Woodland and West Sacramento Day Reporting Centers and the concept of utilizing CCP dollars to provide stipends to Probation clients who take advantage of job trainings offered or facilitated by HHSA/WIB. As there is already funding available for training through HHSA, Stipends would be approved at the discretion of Probation Officers for engaged and committed clients on their caseload, and would be limited to support such as fuel to get to training or necessary clothing/equipment (i.e., work boots, hard hat, safety vest, etc.).

Probation will continue to work with the HHSA/WIB, as well as the Day Reporting Center, to develop these services and intends to provide bi-annual updates to the CCP on the success of the program.

Subject: Receive status update on implementation of the 2019-2022 CCP Strategic Plan and provide input on objectives that should be carried over to the 2023-2025 Strategic Plan; finalize dates for CCP community engagement meetings; and approve the addition of a CCP meeting on June 6, 2022 for strategic planning.

Background

The CCP's current Strategic Plan (Attachment C) was developed for implementation in calendar years 2019 through 2022. The plan includes 15 objectives intended to further the following goals of the CCP:

1. Ensure a safe environment for all residents and visitors by reducing and preventing local crime and reducing recidivism
2. Restore victims and the community and hold offenders accountable
3. Build offender competency and support community reintegration

Departments receiving CCP funding were recently asked to provide status updates on those objectives under their purview (Attachment B) which were further reviewed during the April 11, 2022 CCP meeting.

Updates

To garner community input as the CCP develops the 2023-2025 Strategic Plan, the CCP has identified two dates on which community engagement meetings could be held to discuss the CCP's history and objectives, and to collect the public's thoughts on the direction of the CCP. Participating CCP departments will include the County Administrator's Office, District Attorney's Office, Winters Police Department, Public Defender's Office, Probation Department and Health and Human Services Agency.

The community meetings will be held on Tuesday, July 19, 2:00 to 3:30 p.m. and Monday, August 8, 5:00 to 6:30 p.m. The meetings will be held via Zoom and facilitated by the Yolo Conflict Resolution Center, as approved at the last meeting of the CCP.

Additionally, a special meeting of the CCP dedicated to the topic of the 2023-2025 Strategic Plan is recommended for June 6, 2022 to help staff forward this effort.

Recommended Actions

1. Provide input on those objectives in the 2019-2022 Strategic Plan that may not be complete by the end of 2022 and should be considered for inclusion in the 2023-2025 Strategic Plan.
2. Affirm plans to hold two community engagement meetings:
 - a. Tuesday, July 19, 2022 from 2:00 to 3:30 p.m.
 - b. Monday, August 8, 2022 from 5:00 to 6:30 p.m.
3. Approve the addition of a CCP Special Meeting on Monday, June 6, 2022 at 1:30 p.m. to discuss next steps in developing the 2023-2025 Strategic Plan.

Goal 1: Ensure a Safe Environment for All Residents and Visitors by Reducing and Preventing Local Crime and Reducing Recidivism				
Objective	Action	Status on 08/11/20	Status Update 08/11/20	Status Update 04/11/22
<p>1A. Work to build a comprehensive continuum of substance abuse services, and improve mental health and substance abuse service provision.</p> <p>Setting objectives with a SMART component: dates/deadlines for the 2023-25 plan</p>	<p>Improve VA verification at the jails and establish a baseline of data for the number of veterans in the jail.</p>		<p>The jail can currently run reports on who has self-identified as military (current/former). The next step would include establishing a baseline of data using these reports.</p>	<p>This objective was related to starting a VA specialty court. The action was to identify the number of vets to see if there was critical mass to warrant creating a court related to veterans.</p> <p>Desire to start a Veteran’s Court – judges to start this yet a challenge for judges to have a number of specialty courts. Should be brought up to PJ and/or Shawn. Not a large number at this time – could add numbers to other specialty courts versus starting a new one. Public Defender/DA to bring this up in standing meetings with courts – on behalf of the CCP. Chief Fruchtenicht will initiate the ask.</p>
	<p>Partner with the Criminal Justice Continuum of Care Work Group* to identify future service needs and arising issues in the criminal justice system. [not a relevant item to carry forward in the next strategic plan]</p> <p>*Group does not meet anymore</p>	<p>In Progress</p>	<p>The Sequential Intercept Map (SIM) process and Data-Driven Recovery Project (DDRP) are the result of the work being completed by the Continuum of Care Work Group. The SIM, reviewed by the Community Corrections Partnership (CCP) in October 2019 and by the Board of Supervisors in July 2020, illustrates gaps in services in Yolo County, while the DDRP provides opportunities for data sharing and management within the County.</p>	<p>SIM and DDRP process is ongoing</p> <p>*Clint to meet w/ Ian offline – send this document for input</p>

	<p>Research ways to address probationer needs, such as employment* and medical services.</p> <p>*Broad action – perhaps move to different objective for the 2023-25 plan?</p>	<p>Future Project</p>	<p>There is data available from risk and needs assessments that may provide historical data trends. Potential solutions could include an employment specialist/navigator shared between the Sheriff and Probation departments.</p>	<p>CCP funding set aside for vocational development services; job training survey voluntarily completed by 182 clients to narrow down interests</p> <p>Crisis Now program under development</p> <p>Co-responder mental health clinicians (5 total) 1 supporting Sheriff and Probation (2-W. Sac, 1-Davis, 1-Woodland) – 2nd coming to Woodland soon for a new total of 6</p> <p>Focused re-entry entry services provided by Probation, especially for high-needs clients</p> <p>Mobile Medicine Program – not funded by CCP – in communities, shelters, on-site – front-end medical response (should this be included here?)</p>

<p>1B. Find ways to more effectively receive input and share information with the public regarding criminal justice and CCP efforts.</p>	<p>Explore the creation of a Yolo County Criminal Justice Advisory Committee.</p>	<p>Future Project</p>	<p>This project would include community engagement, as previously proposed by CCP member, in different communities on a rotating basis.</p>	<p>No concrete efforts to move forward.</p> <p>PR blitz re: CCP (public comment from Mar. meeting)</p>
	<p>Organize a list of criminal justice and treatment organizations, and begin giving updates from these other organizations.</p> <p>Updates to the CCP? Public may not have been aware of some updates/programs – feedback from public – highlight or share with public moving forward – providers receiving funding from contracts to come back and present – Ian to share updated SIMs map (sent on 4/11)</p>	<p>Future Project</p>	<p>Health & Humans Services Agency (HHSA) has a provider list which might serve as a helpful template in developing this project.</p>	<p>Some providers cataloged as part of SIM project</p> <p>Probation working on developing a list of their Adult programs and services, similar to information in Comprehensive Multi-Agency Juvenile Justice Plan for youth</p> <p>2-1-1 Yolo may be a resource depending upon the intended goal</p> <p>Results First initiative – did they catalog Tx programs? Yes, funded through CCP. Social Worker from Public Defender has more information. (Clint to get from Tracie)</p>

<p>1C. Develop an integrated justice and behavioral health data sharing platform which will increase information sharing and coordination among law enforcement agencies and behavioral health partners.</p>	<p>Work with CRAM to create a criminal justice IT plan to coordinate data management efforts.</p> <p>CRAM is no longer together.</p>	<p>In Progress</p>	<p>County Information Technology (IT) to re-start regular meetings with workgroup. The DDRP provides additional opportunities for partners to engage with the existing work/integration of Probation, Jail and Behavioral Health data to add more partners or data sets to support research, development and analysis.</p>	<p>DDRP has forwarded this effort to some degree</p> <p>Made steps to address this in the past – some data sharing challenges; Kevin O’Connell has helped bridge some of these gaps and pull together information; no integrated data sharing platform</p>
	<p>Research and interview other agencies regarding their data sharing projects.</p>	<p>In Progress</p>	<p>There are several avenues that may be utilized to complete this process. The first is to connect with Sacramento and Alameda counties regarding their existing data-sharing projects. Next, the DDRP has access to 10 counties doing some form of data sharing or funding integration. There are also counties using innovation money to develop technical approaches.</p>	<p>Other counties were consulted; IT found their methods not compatible with our current systems; confidentiality continues to be a hurdle</p> <p>Check w/ Lee Gerney to get a catalog of CJ/IT projects</p> <p>*Keep Kevin O’Connell’s work & research ongoing – reported in “real time”</p>
	<p>Decide on the best system design approach for Yolo County and hire a consultant to create project plan and RFP for data sharing.</p>	<p>Future Project</p>	<p>Possible need for a consultant or Business Intelligence report. Depends on what is being shared, how often it needs to be updated and any transformation. While there is a cost to technology, true cost will be human resources to standardize uses and approaches across agencies.</p>	<p>Previously a project of the DA; still a worthy goal; reached out to Measures for Justice and DA re: Transparency Project</p>
	<p>Secure funding for data sharing system.</p>			<p>*Same as above</p>

<p>1D. Incorporated outcome-driven decision making by implementing current research and evidence based-practices</p>	<p>Work with the California State Association of Counties (CSAC) through the Results First partnership to create a cost-benefit analysis tool for our CCP programs.</p>	<p>Completed</p>	<p>Results First initial report is complete. Staff have completed the recidivism study, program inventory, resources use analysis and cost-benefit analysis. Staff will present report to the CCP on August 10 and the Board of Supervisors on September 1.</p>	<p>Continuing to work with CSAC on additional cohorts</p>
	<p>Implement evidence-based contracting.</p>	<p>Future Project</p>	<p>The next step is to develop quality assurance processes for contracts and program monitoring, and then a subsequent way to measure continuous quality improvement processes for future analysis. In Progress	CHFFA Round 1 grant received for \$1 million to acquire/rehab 2 properties to house 5 clients each for Diversionary Housing Project. \$66,000 will be required annually for property management. CCP has been funding property management for IGT house (also houses 5 clients) at ~\$30,000 annually.	Prior attempts to implement grant have not been successful due to need for a more robust community outreach; current housing market makes it difficult to implement as currently planned; consulting with CCP on next steps (CCP contribution to effort, reduced effort, forfeiture of grant)
