APPLICATION REQUIRED MATERIALS

The following list specifies the information needed to submit a proposed application for a Certificate of Compliance; a Lot Line Adjustment with a Certificate of Compliance; or a Lot Merger.

ITEM		RECEIVED			
Applica	tion Fee(s): Please check with a planner regarding applicable fees				
Applica	tion Form (both sides, signed)				
Enviror	mental / Project Site Questionnaire				
Locatio	n Map (may be combined with Lot Line Adjustment Map, below)				
	e Adjustment (LLA) Map (if requested, see attached "Requirements t Line Adjustment/Merger Map")				
request	escription(s) of the parcel(s) for which the Certificate of Compliance is ed, or new legal descriptions for the proposed new parcels crated by a ng with a copy of closure calculations				
Assess	or's Parcel Map (project site outlined)				
One 81/2 x 11 reduction of all maps, plans, etc.					
Prelimi	nary Title Report or Copy of Deed				
(recorder and date which the	f the lots for a Lot Line Adjustment, provide a Certified Chain of Title ed grant deeds) in chronological order starting from the current date ing back to the first grant deed that described the specific parcel for the LLA/Certificate of Compliance is being requested. Smitted Chain of Titles shall comply with the following:				
1.	It shall be prepared by a title company.				
2.	The first page of the chain of titles shall be a letter from the title company certifying that the submitted document is the complete chain of titles.				
3.	The second page of the submitted document shall contain a summary of all the grant deeds showing the document number, book and page number; date of filing in the County Recorder's Office; and names of the persons exchanging the property.				
4.	The grant deeds shall be clearly readable and shall show the document number, book and page number and date of filing in the County Recorder's Office.				

Digital files of all the application plans and materials, as available

Additional Information: Depending upon the exact nature of the application, additional

information May be required after submittal of the project application

NOTE:

The recording of a Certificate of Compliance pertains only to issues of compliance or noncompliance with the State Subdivision Map Act and local ordinances enacted governing land divisions. A Certificate of Compliance or a Lot Line Adjustment does not create new parcels. The land use development of the parcel(s) described by the Certificate of Compliance may require issuance of permit(s) (e.g. conditional use permit(s), building permits, etc.) or other grants of approval (e.g. approval of access to connect to the County public right-of-way, issuance of well and septic permits, etc.).

PERMIT PROCESSING FEE AGREEMENT

I, the undersigned, hereby authorize the County of Yolo to process the permit request on the previous side of this application in accordance with the Yolo County Code. I (the land owner and/or the applicant) am depositing a minimum initial deposit to cover staff review, coordination, and processing costs related to my application request based on actual staff time expended and other direct costs, including, but not limited to, outside consultant services, county counsel charges, and materials costs in accordance with the adopted Yolo County Fee Resolution and the Project Cost Reimbursement Agreement attached to this application, if required. This initial deposit will be held by the County in a deposit account to pay for staff time and other charges spent processing the application. I understand that such costs will be drawn from the deposit account and that I will be billed on a "time and materials" basis in order to maintain a positive account balance at all times during the review process. I further understand that no work will be performed on the project with a negative fund balance. By signing below, I agree to pay all permitting costs, including requests to supplement the deposit account, plus any accrued interest, if the applicant does not pay costs.

I agree not to alter the physical condition of the property during the processing of this application by removing trees, demolishing structures, altering streams, and grading or filling. I agree not to start construction of any new structures prior to permit approval. I understand that such alteration or new construction may result in the imposition of criminal, civil or administrative fines or penalties, or may result in the delay or denial of the project application.

FISH AND GAME REVIEW FEES: I understand that my application and/or any applicable environmental document for my project may be referred to the California Department of Fish and Wildlife (CDFW) for review and comment in accordance with the provisions of the California Environmental Quality Act. Should this review be required, I understand that I must pay all fees for the cost of CDFW review as required by Section 711.4 of the Fish and Game Code (currently \$2,548.00 for Negative Declarations or \$3,539.25 for Environmental Impact Reports, plus \$50.00 County Clerk fee). Should these fees be required, I agree to remit a cashier's check or money order in the required amount, payable to the Yolo County Clerk, to the Planning Division prior to the posting of any Notice of Determination following project approval.

MITIGATION FEES OR REQUIREMENTS: I further understand that my project, if approved, may be subject to one or more mitigation fees including the following fees current as of 2022:

Yolo HCP/NCCP land cover fee*: \$15,571 per acre of impact to all applicable land cover types

Yolo HCP/NCCP fresh emergent wetland fee*: \$80,864 per acre of impact to fresh emergent wetland areas

Yolo HCP/NCCP valley foothill riparian fee*: \$66,560 per acre of impact to valley foothill riparian areas

Yolo HCP/NCCP lacustrine and riverine fee*: \$64,854 per acre of impact to lacustrine or riverine areas Agricultural mitigation in lieu fee: \$10,100 per acre of farmland converted (for projects less than 20 acres) Inclusionary Housing in lieu fee: sliding scale for projects under 8/10 units (\$1,292 for single family house)

*Fee amounts subject to change in March of each year per the conditions outlined in the Yolo HCP/NCCP

AFFIDAVIT OF CERTIFIED PROPERTY OWNERS

I further certify that the attached list of property owners contains the names and addresses of all persons to whom all property is assessed as they appear on the latest available assessment roll of the County within the area described on the attached application and for a distance of three hundred feet (300) from the exterior boundaries of the property described on the attached application.

I certify under penalty of perjury that the foregoing is true and correct.

CERTIFICATION STATEMENT OF HAZARDOUS WASTE OR SUBSTANCE SITE

Pursuant to the requirements of Section 65962.5 of the California Government Code, I certify that the project site for the above entitlement is <u>not</u> located on the <u>State list of identified hazardous waste/or hazardous</u> substance sites.

INDEMNIFICATION AGREEMENT

As part of this application, applicant and real party in interest if different, agree to defend, indemnify, hold harmless, and release Yolo County, its agents, officers, attorneys, and employees from any claim, action, or proceeding brought against any of them, the purpose of which is to attack, set aside, void, or annul the approval of this application or adoption of the environmental document, which accompanies it. This indemnification obligation shall include but not be limited to: damages, costs, expenses, attorney fees, or expert witness fees that may be asserted by any person or entity, including the applicant, arising out of or in connection with the approval of this application, whether or not there is concurrent passive negligence on the part of Yolo County, its agents, officers, attorneys, or employees.

LOT LINE ADJUSTMENT/MERGER REQUIREMENTS

Each Lot Line Adjustment Map shall consist of one or more sheets of equal size and shall be drawn to one inch to one hundred-foot or larger scale unless otherwise approved by the Planning Director. Pursuant to Section 8731 of the Professional Land Surveyors Act, a Lot Line Adjustment Map shall be prepared by a California Land Surveyor, or a Registered Civil Engineer authorized to practice land surveying. The Lot Line Adjustment Map shall be clearly and legibly drawn and shall contain not less than the following information:

- 1. A small vicinity or area map (1"=2,000') showing roads, towns, major creeks, railroads and other data sufficient to locate the proposed Lot Line Adjustment property.
- 2. Title block, which shall contain the North arrow and scale, date of preparation of the map, and the name and address of legal owner(s) and the person preparing the map.
- 3. Assessor's parcel numbers on all parcels affected by the proposed Lot Line Adjustment.
- 4. Location of all existing structures, distances between structures, and distances between structures and boundary lines of both the original parcel boundaries and the adjusted parcel boundaries.
- 5. Location of all existing wells, water lines, septic tanks, leach lines and replacement areas; distances between wells, septic tanks, leach lines and replacement areas; and distances between septic tanks, leach lines and replacement areas and boundary lines of both the original parcel boundaries and the adjusted parcel boundaries.
- 6. Names, locations and dimensions of all existing streets, roads and rights-of-way on or bounding the original parcels.
- 7. Locations and dimensions of all proposed easements, streets, roads, and rights-of-way.
- 8. Approximate location of existing and proposed domestic wells and location of existing and proposed septic tanks and leach fields for all lots affected by the proposed Lot Line Adjustment.
- 9. Approximate location of all watercourses, 100-year floodplain, reservoirs, streams, rivers, drainage channels, and existing and proposed drainage structures.
- 10. Proposed improvements, if any.
- 11. Existing topography of the subject property, including but not limited to the contour of the land at intervals of 2 feet of elevation up to 5%, or lesser contour intervals as may be approved by the Director of Planning, Resources and Public Works. Contours shall be indicated on contiguous property for a distance of 200 feet. Every fifth contour shall be a heavier weight line.
- 12. Existing and proposed boundary lines, dimensions, and approximate areas of the original parcels and of the adjusted parcels.
- 13. New legal descriptions for the proposed new parcels (electronic file is requested), along with a copy of closure calculation

FINDINGS REQUIRED

For approval of this project, the Zoning Administrator will need to make the following findings, as required by Sec. 8-1.606(a) of the County Code:

- 1. That the application is complete and that all record title holders who are required by the Subdivision Map Act of the State to consent have consented to the proposed merger or lot line adjustment, and that the proposed merger or lot line adjustment is in compliance with said Act;
- 2. That the deeds to be utilized in any transaction, if necessary, accurately describe the resulting parcels, and that the merger or lot line adjustment will not result in the abandonment of any street or utility easement of record;
- 3. That if the lot line adjustment will result in a transfer of property from one owner to another owner, that the deed to the subsequent owner expressly reserves any street or utility easement of record;
- 4. The adjustment is consistent with applicable building ordinances, and that either:
 - (i) all of the resulting lots will conform to all applicable zoning requirements including minimum parcel size, or
 - (ii) no conforming lot will be made nonconforming with applicable zoning requirements and the adjustment will not reduce the aggregate area of all affected lots which do not meet applicable zoning requirements;
 - (iii) in the case of antiquated subdivison and/or Certificate of Compliance that recognizes a series of contiguous small legal lots in an agricultural zone, the adjustment is necessary to cluster small home site parcels of 2.5 to 4.0 acres in one area to reduce impacts to agricultural operations, as set forth in section 8-2.403 of Chapter 2 of this title.
- 5. Approval of the lot line adjustment will not create a greater number of parcels than originally existed;
- 6. That the merger or lot line adjustment will not result in the elimination or reduction in size of an access way to any resulting parcel, or that the application is accompanied by new easements to provide access that meet all the requirements of this code;
- 7. That the merger or lot line adjustment is excluded from the Subdivision Map Act, and has been reviewed pursuant to Section 66412(d) of said Act;
- 8. That the merger or lot line adjustment is consistent with the General Plan;
- 9. That the merger or lot line adjustment complies with the zoning regulations and parcel size minimum standards as set forth in Chapter 2 of this title;
- 10. That the Zoning Administrator is satisfied that the design of the resulting parcels will comply with the requirements of this title and provides for water drainage, public road access, water supply sewer system availability, environmental protection, and all other requirements of State laws and this code; and
- 11. That the merger or lot line adjustment will not result in a significant effect on the environment pursuant to the California Environmental Quality Act (CEQA) (Public Resources Code 21000 et. Seq.), and/or is categorically exempt pursuant to CEQA Guidelines Section 15305, as amended.
- 12. That, as required by the County Recorder, if there are multiple owners involved, all deeds shall be executed simultaneously with recording the lot line adjustment.

In addition, as required by the County Recorder, if there are multiple owners involved, all deeds shall be executed simultaneously with recording the lot line adjustment.

April Meneghetti, REHS Director of Environmental Health

County of Yolo

DEPARTMENT OF PLANNING, PUBLIC WORKS AND ENVIRONMENTAL SERVICES

Environmental Health Division

ENVIRONMENTAL HEALTH LAND USE REVIEW SURVEY

A Building Permit Application may require a review from Yolo County Environmental Health (YCEH) to ensure the compliance with County, State and Federal laws and regulations. Please complete this survey and answer questions pertaining to each YCEH unit to the best of your knowledge, and submit it as part of your complete application. This survey should be completed by the property owner or the business operator.

c) Will you have an above ground storage tank? d) Will you be selling motor vehicle fuel? • If yes, will you have an underground storage tank? + e) Will you be engaging in welding operations? information for approval by YCEH. For assistance with CERS, or any other hazmat questions,	
d) Will you be selling motor vehicle fuel? • If yes, will you have an underground storage tank? • Will you be engaging in welding operations? approval by YCEH. For assistance with CERS, or any other hazmat questions,	
 If yes, will you have an underground storage tank? + Will you be engaging in welding operations? 	
e) Will you be engaging in welding operations? hazmat questions,	
• If yes, will you be handling more than one cylinder of call our office at	
acetylene, oxygen, shielding of other welding gasses:	
i) will you be operating forkillts?	
If yes, will you be storing more than one extra cylinder	
of propane?	
g) Will you be storing batteries with 55 gallons or more of	
acid? h) Will you be engaging in photography?	
h) Will you be engaging in photography? review.	
If yes, will you be generating photographic waste fluid? Will you be an acting in your processing?	
i) Will you be engaging in x-ray processing?	
If yes, will you be generating x-ray processing waste	
fluid?	
3. Are there unused/abandoned hazardous materials storage Containers on this site? For example, above-ground tanks or abandonments.	
containers on this site? For example, above-ground tanks or underground tanks or barrels.	
unuerground tanks or parreis.
