Article I – Authority

The Community Corrections Partnership (CCP) and its composition is established by Penal Code section 1230; its Executive Committee (EC) by Penal Code section 1230.1 (b).

Background

SB 678 (chaptered on October 11, 2009) established a program to reduce the percentage of adult probationers sent to prison for probation failure. This bill added Penal Code section 1230, which established the Community Corrections Partnership (CCP) as an advisory body to Probation.

AB 109 (chaptered on April 4, 2011) and AB 117 (chaptered on June 30, 2011), known as the Public Safety Realignment Act of 2011, added Penal Code Section 1230.1, requiring that the local CCP develop and recommend a public safety realignment plan (CCP Strategic Plan) to the county Board of Supervisors “to maximize the effective investment of criminal justice resources in evidence-based correctional sanctions and programs[.]” It also established an Executive Committee of the local partnership as the voting authority within the CCP for the Strategic Plan.

10-Year Public Safety Realignment Draft Outline**

DRAFT

Assembly Bill 109 (Public Safety Realignment Act)

In 2011, Governor Brown signed into law Assembly Bill (AB) 109, the Public Safety Realignment Act, which made fundamental changes to California's correctional system to stop the costly, ineffective and unsafe "revolving door" of lower-level offenders and parole violators through California's State prisons.

The Public Safety Realignment Act:

- Shifted responsibility for all sentenced non-violent, non-serious, non-sex offenders from State to local jurisdictions;
- Established Post-Release Community Supervision (PRCS);
- Changed the parole revocation process;
- Tasked Community Corrections Partnerships (CCPs) with planning for the change and implementing the local plans; and
- Gave local law enforcement the right and the ability to manage offenders in smarter and cost-effective ways.

Community Corrections Partnership Plans

Three years prior in 2009, Senate Bill 678 (California Community Corrections Performance Incentives Act) introduced the concept of a Community Corrections Partnership (CCP). At its core, the CCP is comprised of local stakeholders collectively meeting and strategically making decisions related to community corrections – the supervision of offenders in a community setting rather than in a prison or jail. County implementation plans – also known as Realignment Plans or AB109 plans – provide the approaches counties are utilizing in realigning State public safety functions to their local jurisdictions.

Yolo County CCP

Since the passage of AB 109, Yolo County has convened a CCP with the charge to develop and implement a local Realignment plan. This document details the efforts of the Yolo CCP over the past decade as it relates to the local plan and its implementation.

- Reduce the number of jail days: Measurement derived from the amount of time each participant has been engaged in the MHC program juxtaposed with the exact same time frame just prior to their participation in MHC. The number of days spent in jail from each time period was compared. Each jail day costs an average of \$121. The reduction in jail days saved an estimated \$66,792. 47.5% Reduction in Jail Days [610/1162] Removing (Positive Skew 312/84) Variable: 72.3% Reduction [289/1078]
- Reduce the number of state hospital days: Measurement taken from the amount of time each participant has been engaged in the MHC program juxtaposed with the exact same time frame just prior to their participation in MHC. The number of days spent in a state hospital from each time period was compared. The average cost of a day in a state hospital is \$626. The reduction in state hospital commitment saved an estimated \$47,576. *Local Hospital: 40% Increase [47/28] State Hospital: 47.8% Reduction [83/159] Combined Total: 30.4% Reduction [130/187] 350 *The increase in local hospitalizations can be attributed to the increased treatment engagement, thus more mental health professionals have contact with the client, which increases referrals for psychiatric hospitalizations whereas without intensive services, this population might otherwise be booked into the jail.
- Increase treatment engagement: Measurement taken from the amount of time each participant has been engaged in the MHC program juxtaposed with the exact same time frame just prior to their participation in MHC. Statistics calculated in several ways. (a) The number of mental health appointments scheduled and attended from each time period was compared; thus showing the “no-show” rate. (b) The total number of appointments attended from each time period was compared; showing the level of increased/decreased treatment engagement. The

below listed statistics are specific to the latter (b). 700.12% Increase in Mental Health Appointment Attendance [1754/245]

Program Overview

The Community Corrections Partnership (CCP) is the governing body responsible for developing and submitting public safety realignment implementation recommendations to the Yolo County Board of Supervisors. The Yolo County CCP takes an active and collaborative role in reforming existing corrections practices by emphasizing the importance of evidence-based practices and cost-effective strategies. The mission of the CCP is “to protect the public by holding offenders accountable and providing opportunities that support victim and community restoration, offender rehabilitation and successful reintegration”.

Under the goal to “ensure a safe environment for all residents and visitors by reducing and preventing local crime and reducing recidivism”, the CCP’s 2019-2022 Strategic Plan includes the objective to “implement research-based prevention and educational programs”. This objective includes an action to “support neighborhood programs”. As such, the CCP recommended, and the Board of Supervisors adopted an annual budget of \$80,000 for this purpose.

This RFP is seeking proposals for use of this CCP funding from community-based organizations (CBOs) that provide neighborhood programs and/or supports which are proven to reduce recidivism and/or prevent entry into the criminal justice system.
