## Revenue

Community Corrections Partnership (CCP) programs and services are supported by the Public Safety Realignment Act of 2011, or Assembly Bill 109. 2011 Realignment is funded through sales tax and vehicle license fees.

Counties receive these funds through two allocations:

- 1. When the legislation was first enacted, the base allocation was a minimum level of funding. Now, the base allocation is typically the prior year's base plus its growth.
- 2. The growth allocation is based on any additional sales tax in excess of the base. It is then assigned to counties based on the following performance measures:
  - 2nd Striker Reduction
  - Felony Probation Success (60%)
  - Felony Probation Improvement (20%)
  - Incarceration Reduction (10%)
  - Low Incarceration Rate (10%)

As an example, in 2021-22, Yolo County's CCP received a base allocation of \$9.7 million and a growth allocation of \$3.5 million, for a total of \$13.3 million. For this fiscal year (2022-23), Yolo County's base allocation is \$13.1 million, the total of the previous year's base and growth.

## **Fund Balance**

The CCP also has a fund balance which is made up of unspent revenues from prior fiscal years. There are a variety or reasons for unspent revenues. One common reason is new programs often take time to implement, resulting in a savings in the budgeted expense. At the end of the fiscal year, these unspent dollars fall to fund balance. The CCP has chosen to utilize fund balance as a savings account given the volatility of State funding. A sizable fund balance allows the CCP to weather economic downturns and avoid interruptions in programs and services.

## Percentage Base Budget Model

In 2021-22, the CCP adopted a percentage-based budget model which allowed the CCP to streamline its budgeting process, resulting in each department and focus area receiving a percentage of base and growth revenues annually. This move also allowed the CCP to further focus their dollars on Treatment and new innovative projects, such as the Mental Health Diversion program.

The Treatment allocation funds the Day Reporting Center, Mental Health Diversion, direct to client treatment services, ongoing operations of the transitional living IGT House and in-custody substance use disorder treatment, among other programs.

The CCP's budget also includes funding for dedicated financial and analytical support.

Note: For more information about specific programs, visit the Reports & Outcomes page

\*In 2021-22, the CCP voted to contribute an additional 5% of budgeted new revenue (for a total of 10%) due to receipt of unprecedented, likely one-time growth funds
