

PRIVATE APPLICATOR CERTIFICATES *Update*

IMPORTANT PAC REVISIONS:

In 2017, the U.S. EPA revised Title 40, CFR 171 which pertains to the Certification of Pesticide Applicators. As a result of these revisions, changes to DPR's pesticide applicator certification program and regulations were made in order to meet the revised standards. Current PAC holders are required to take the new PAC exam, with a burrowing vertebrate pest fumigation certificate option, based on last name.

Last Name R-Z

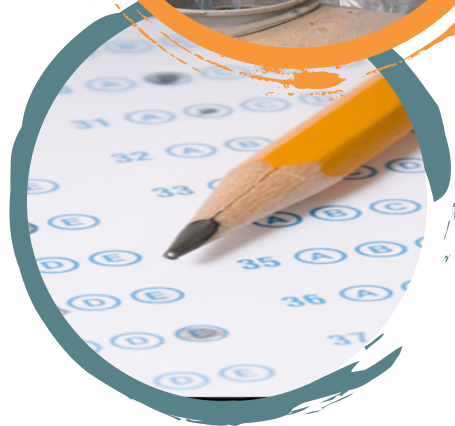

Prior to renewing your certificate in 2024, you will be required to take the revised exam. Do not obtain CE hours.
