County of Yolo Agriculture / Weights & Measures Department

Humberto Izquierdo
AGRICULTURAL COMMISSIONER
SEALER OF WEIGHTS AND MEASURES

70 COTTONWOOD STREET WOODLAND, CALIFORNIA 95695-2557 Phone (530) 666-8140 Fax (530) 662-6094

Karen Ross, Secretary, California Department of Food and Agriculture

and

Honorable Board of Supervisors, County of Yolo:

Supervisor Oscar Villegas, Chair, District 1 Supervisor Lucas Frerichs, Vice Chair, District 2 Supervisor Jim Provenza, District 4 Supervisor Angel Barajas, District 5

Pursuant to the provisions of Sections 2279 and 2272 of the California Food and Agricultural Code, I am pleased to present the Yolo County Crop Report for 2022. This annual publication summarizes the acreage production and valuation of Yolo County's agricultural commodities. These figures denote gross value of production and do not attempt to reflect net farm income.

The gross value of Yolo County's agricultural production for 2022 was \$693,548,000. This represents a decrease of \$117,575,000 or 14.5% in comparison to 2021's value of \$811,123,000. This was primarily due to water shortage and adverse weather conditions, which affected almonds, grapes, rice, and walnuts.

Almonds and grapes were hit hard by the freeze. Walnuts continue to see a downward trend and in 2022 sunburn effected quality, leading to even lower prices. The drought continued to effect rice production and livestock operations. The lack of water meant less rice could be planted. In addition, livestock operations faced challenges due to reduced forage for livestock grazing. On a positive note, overall hay values increased, and tomato prices remain strong.

I would like to express my appreciation to all the farmers, ranchers, and agencies who contributed data to make this report possible. Special recognition for the compilation and preparation of this report goes to Molly Mathews - Deputy Agricultural Commissioner.

To see this or any previous crop reports online, or to learn about the programs and services provided by the Yolo County Department of Agriculture, visit: www.yolocounty.org/ag.

Respectfully submitted,

Humberto Izquierdo

AMZ:

Agricultural Commissioner/Sealer of Weights & Measures

TOP 10 COMMODITIES

	COMMODITY	2022	2021	2020

CERTIFIED FARMERS MARKETS

Certified Farmers' Markets (CFMs) reestablish the relationship between the consumer and the farmer. CFMs benefit the agricultural community and consumers by providing Yolo County residents access to fresh produce, building community relationships, and by supporting the local economy. The Yolo County Department of Agriculture certifies the farmers markets and producers located within the county.

COMMUNITY SUPPORTED AGRICULTURE

Community Support Agriculture (CSA) is a form of direct marketing which consists of members or "shareholders" subscribing to an agricultural operation or a group of agricultural operations. The member of a CSA program purchases a share of the farm's crop and receives a portion of the harvested goods. Similar to Certified Farmers Markets, CSAs connect the producer and consumer, provide access to fresh farm goods, and support local farms.

PEST EXCLUSION

Exotic insects and plant diseases can cause destruction to agriculture, urban landscapes, and forests. Most of these pests are exotic to Yolo County, and could quickly infest a territory as rich in agriculture as ours. The Agricultural Commissioner's office maintains a diligent Exclusion Program to prevent pests from entering our borders. Inspectors keep watch over incoming plant shipments to nurseries, farms research facilities, box stores, and individuals.

In 2022, 2,614 plant material shipments were inspected and 230 shipments were found to harbor pests of concern. These shipments were rejected due to Federal or State Quarantine violations for live pest finds. For the tenth year in a row, Yolo County led the State in pest interceptions at the United States Postal Service in California for 2022.

OUARANTINE PESTS

SUSTAINABLE — AGRICULTURE REPORT

Yolo County maintains a comprehensive Detection Program, as a second line of defense and early warning system against pest introductions. This system of insect trapping identifies exotic live pests before they can become established, avoiding major financial and environmental impacts. In 2022 over 1,000 Yolo County residents helped to protect our local agricultural industry by hosting residential traps for Mediterranean, Oriental, and Melon Fruit Flies, Spongy Moth, Japanese Beetle, Glassy-winged Sharpshooter, and Light Brown Apple Moth. Additional Glassy-winged Sharpshooter traps were placed in plant nurseries. European Grapevine Moth and Apple Maggot traps were situated among corresponding host crops.

BIOLOGICAL CONTROL

SCOPE OF PROGRAM **PEST AGENT MECHANISM** Puncture Vine Seedhead Weevil Countywide Tribulus terrestris Microlarinus lareynil Yellow Starthistle Seedhead Weevil Countywide Centaurea solstitialis Bandastemus orientalis Hairy Weevil Countywide Eustenopus villosus Yellow Starthistle Rust Four Sites Puccinia jaceae var. solstitialis Ash Whitefly Parasitic Wasps Countywide Syphoninus phillyreae Encarsia parenopea

WEIGHTS & MEASURES

County weights and measures officials (Sealers) serve all consumers as the local regulatory agency authorized to enforce the California Business and Professions Code and the California Code of Regulations pertaining to issues of "Equity in the Marketplace". This enforcement efficiently and effectively protects local commerce, thus encouraging stability in the State's economy.

Consumer protection is serviced through the following elements:

- Verifying correct transactions of purchased consumer goods sold by weight, volume or count (such as scanner pricing and correct labeling on prepackaged or bulk commodities)
- The inspection and testing of commercial weighing and measuring devices, to assure their accuracy. Such devices include grocery store check-out stands, gas pumps, gas and electric meters and other devices used to measure, weigh or meter consumer goods, including large and small capacity scales
- The sampling of petroleum products at commercial locations for quality

In 2022, 11,421 devices were registered with the Weights & Measures Division.

Measuring Devices:

- 41 DEF Meters
- 7,267 Electric, Vapor, Water Submeters
- 74 EVSE, CNG, LPG, LNG, & Hydrogen Meters
- 27 Fabric Cordage Meters
- 15 Odometers
- 2,380 Retail Motor Fuel
- 62 Retail Water Dispensers
- 90 Vehicle Tank Meters

Weighing Devices:

- 88 Class II , Prescription Scales
- 615 Computing and Counter
- 197 Dormant/Portable Platform Scales
- 245 Forklift Scales & Misc. Scale Types
- 18 Livestock/Animal
- 18 Railway, Meat, Hopper, Hanging
- 94 Vehicle
