September 30, 2023

To: Yolo County Central Landfill organic material customers

Subject: Organic material acceptance guidelines for SB 1383 reporting

Under the Recordkeeping Requirements of California Senate Bill (SB) 1383, it is required that each jurisdiction provide the California Department of Recourse, Recycling and Recovery (CalRecycle) information related to the facilities the jurisdictions use to meet their organics diversion needs. The following information may be used for purposes of complying with Section 18984.1 to 18984.4:

As part of the Yolo County Central Landfill (57-AA-0001), there are three sub-permitted facilities for organic material processing. The RDRS Number for all three of these facilities is RD 12535

Facility	Accepted	Not Accepted
Compost Facility 1 - Anaerobic Composters	Yard waste, food waste, mixtures of yard and food waste, ASTM D6400 compostable materials which may include utensils, bags, plates, cups, etc., food soiled paper, pizza boxes, wax coated paper products	Plastic bags, plastic utensils, aseptic containers, trash, pet waste, hazardous waste
Compost Facility 2 – Covered Aerated Static Pile (CASP)	Yard waste, food waste, mixtures of yard and food waste, ASTM D6400 compostable materials which may include utensils, bags, plates, cups, etc., food soiled paper, pizza boxes, wax coated paper products	Plastic bags, plastic utensils, aseptic containers, trash, pet waste, hazardous waste
In Vessel Digester – including food depackager	Commercial food waste in compostable or clear plastic bags, packaged food, liquid food waste (FOG, Winery, etc.)	Yard waste, wood, chopsticks, trash, packaged food in glass containers, hazardous waste
