

The Yolo County Mentor Program — 2024

**Do you have a special set of skills or knowledge that others can benefit from?
Are you eager to experience professional development?
THIS IS THE PROGRAM FOR YOU!**

With The Yolo County Mentor Program, participants create a culture of learning, sharing and networking. Mentoring is a two-way relationship, where both the mentor and mentee should experience benefits. Mentees will benefit through learned skills, professional maturity and an increased level of confidence. Mentors will be able to refine leadership skills, have the satisfaction of helping, and professional accomplishment. All mentoring relationships evolve with time, and new challenges may further enhance the mentees professional growth. Sound interesting? It is! Start today to build a path of a more enlightened future!

Requirements:

- One year commitment
- Willingness to learn
- Supervisors' approval

First Steps:

- Identify potential mentors, and engage them with the possibility of being mentored
