Free School Crossing Guard Trainings in Yolo County this August and September

(Woodland, CA) – The Pedestrian and Bicycle Safety Program of the Yolo County Health and Human Services Agency (HHS) will conduct several crossing guard trainings in August and September. These free trainings are open to anyone but are focused on providing support to individuals who work or volunteer as school crossing guards. Participants will learn about the roles and responsibilities of crossing guards, relevant laws and traffic regulations, and proper crossing techniques.

School crossing guards are crucial in creating a safe environment for students walking and biking to and from school. The Pedestrian and Bicycle Safety Program will follow the crossing guard training guidelines developed by the California Department of Transportation Active Transportation Resource Center, which has standardized training for school crossing guards.

There are eight opportunities to participate with six in-person trainings and two virtual trainings:
