Teichert Aggregates to Perform Asphalt Maintenance on County Roads West of Woodland

(Woodland, CA) – Teichert Aggregates' Woodland Facility will be conducting maintenance work on several public gravel hauling routes just west of the City of Woodland. The project involves grinding and replacing the top layer of asphalt pavement on County Road 20 and County Road 96. The affected sections are County Road 20 from the State Route 16/County Road 98/Kentucky Avenue intersection west to the Teichert Plant, and County Road 96 from County Road 20 to State Route 16.

This maintenance work is scheduled to take place from Tuesday, September 3, through Friday, September 6, during the evening hours of 5:00 p.m. to 6:00 a.m. These hours have been selected to help minimize the impact on daily traffic.

During this period, motorists should be prepared for intermittent road and lane closures in all directions. Delays are expected, and travelers are encouraged to use alternate routes whenever possible. Local access to properties and businesses within the area will be maintained throughout the construction.

For the latest updates on road closures, please visit Yolo County's Road Closures Map at www.YoloCounty.org/RoadClosures. Yolo County urges all drivers to slow down, obey construction signs, and follow directions from flaggers when navigating through the work zone.

We appreciate your patience and cooperation as we complete this important maintenance work. For further information, please contact the Department of Community Services at (530) 666-8811 with any inquiries.
