Re: Flood Plain Elevations for Assessor's Parcel 37-040-05,
Yolo County.

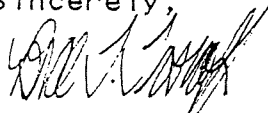

Mr. Roth:

On January 05, 1995, our field crew set marks and tacks on the trim near the easterly entrance of the white house on the subject property. The marks and tacks were set at the 100 year flood plain elevation of 65 feet and one foot above at elevation 66 feet, mean sea level (NGVD 1927) datum. The floor elevation of the house is 64.4 feet.

We also set a permanent benchmark at elevation 66 feet in a 16 inch palm which is approximately 45 feet south of the southeasterly corner of the house. This benchmark is a bridge spike driven in the northerly face of the palm tree.

Please call if you have any questions.

Sincerely,

Bruce T. Tronoff, LS
