the Chair. The Planning Commission reserves the right to impose a reasonable limit on time afforded to any individual speaker.

Chair Bertolero opened the public comment period.

Jack Freeman, a Yolo County resident came forward to reiterate his request for the Planning Commission to include a decision in the Draft General Plan about allowing smaller parcel sizes within the Monument Hills community.

David Morrison, Assistant Director of Planning Services, summarized the discussion from Workshop # 2, regarding his request and informed him that the Planning Commission declined to support his recommendation.

Chair Bertolero closed the public comment period.

David Morrison advised the Planning Commission that Bruce Sarazin from environmental health was available to answer questions from them regarding septic system regulation and other related public health matters.

4. WORKSHOP #3 ON DRAFT GENERAL PLAN

Chair Bertolero welcomed everyone and introduced staff and fellow Planning Commissioners.

- a. Chair Bertolero reviewed the format and organization of the Draft General Plan, and introduced the workshop procedures.
- b. Heidi Tschudin, General Plan Project Manager, shared the overview of the General Plan, including the background, schedule, and process.
- c. Heidi Tschudin gave a short review of Workshop # 2.
- d. Chair Bertolero opened and closed the public comment period.

The Planning Commission recommended the following changes to the Draft General Plan Public Facilities Element after discussion with Bruce Sarazin, Manager of the County Environmental Health Division, and Wayne Taniguchi, Supervisor of the County Consumer Protection Unit.

Pages PF-6, PF-7, Policy PF-1.7

Changed "promote: to "require."

Action PF-A9

Prohibit the installation of septic systems within 100 feet of "natural intermittent" water streams. Encourage Staff to work with Environmental Health to come up with a workable definition of water streams.

PF-9, Action PF-A10

Changed the language to read: "septic systems within areas with high ground water pollution potential, must include supplemental nitrate reduction treatment and annual monitoring of system performance, unless a ground water test is performed and shows no need for a supplemental system." Also recommended that staff reword the last sentence of the existing paragraph.

Chair Bertolero called a recess
