Yolo County Partnering with Cities to Make Disposal of Sharps Easier

(Woodland, CA) – The Yolo County Division of Integrated Waste Management and the incorporated cities in Yolo County have collaborated to implement a Household Hazardous Waste grant awarded by the California Integrated Waste Management Board for the safe disposal of sharps. The purpose of the grant is to support local efforts in reducing the amount of hazardous waste being disposed of in the landfill. The grant specifically focuses on helping Yolo County residents dispose of home-generated sharps.

As of September 1, 2008, home-generated sharps, needles and lancets are banned from landfill disposal. The goal of the Yolo County Division of Integrated Waste Management is to establish convenient methods of disposal for sharps by providing one-quart biohazard collection containers and making 6,000 pre-paid mail back containers for sharps available to the public at no cost.

Once filled, sharps containers may be taken to the Yolo County Central Landfill during Household Hazardous Waste drop off days. Two days of Household Hazardous Waste drop off events are held every month from 9:00 a.m. till 2:00 p.m. Disposal is free to residents of Yolo County. For more information about these events visit: www.yolocounty.org or call (530) 666-8856.

Free biohazard containers will be available to the public in the following locations:
